REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art as cited teaches the claimed composition absent component E. Although polymers similar to component E are taught as parts of molding compositions, they are not taught for injection molding, nor are they taught with the characteristics required. The ratio required for component E is very narrowly defined. The addition of component E to the specific composition of four components already well defined is, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
